NEWSLETTER

Newsletter No 1 // {CURRENT_DATE}

WAB-Newsletter 3.0,

Dear Sir or Madam,
dear readers,

we are pleased to be able to present our newsletter in its new format. From now on it will appear at shorter intervals and can be more easily read on mobile end devices. Please contact the WAB office if you have any suggestions or wish to voice any criticisms.

We hope you have an enjoyable read!

With kind regards,
your WAB-Team

REPORT FROM BERLIN

The Wind Energy at Sea Act now has to prove itself

For the offshore industry, 2015 and 2016 were characterised by two major issues. One was that the successful expansion of the offshore wind industry took place on a large scale in Germany for the first time. The other issue was the long and intense confrontation over the reform of the Renewable Energies Act or rather the Wind Energy at Sea Act.

WAB's cooperation partner Enterprise Europe Network (EEN) offers consultancy service

EEN Bremerhaven/Bremen provides regular updates and advisory services on EU funding programmes

Since early September 2016, WAB has been collaborating with Enterprise Europe Network (EEN) Bremen. The advantage here for all WAB member businesses is that they receive direct information about the wide range of services offered by Europe's largest consultancy network and have access to international cooperation exchanges.

INVITATION: Wind-to-gas technology

Closing event of WAB's "Wind-to-Gas Strategy for Bremen" project

"Wind-to-Gas-Strategy for Bremen" is the title of a WAB project which was recently concluded. The aim of the project was to examine the importance and potential of wind-to-gas technology for the State of Bremen, which would then lead to recommendations for action.

Offshore wind in the Baltic Sea has great potential

Professionals discuss development plans at fifth WINDFORCE Baltic Sea conference in Tallinn (Estonia)

Tallinn, 8 February 2017. Offshore wind energy has become a major feature in the Baltic region. Installed capacity is increasing, prices – as seen recently in the awarding of the Kriegers Flak project – are going down to a level that clearly makes wind competitive with other energy sources, and international wind farm projects and grid networks are adding momentum to this progress.

NEWS FROM OUR WORKING GROUPS

WAB specialist group compiles list of comments on the VGB/BAW standard

Members of the WAB working group on Foundation Structures and Corrosion Protection involved

The VGB/BAW standard for the corrosion protection of offshore wind turbines and wind farm components, a binding specification from the Federal Maritime and Hydrographic Agency, is currently being revised by the VGB [an international technical association which supports the business activities of member companies involved in the generation and storage of power and heat]. Members of the WAB working group on corrosion protection compiled a list of comments several pages long and submitted it to the VGB.

Members of the specialist group on corrosion protection:
