## WAB Newsletter 5 | 2018

Dear Sir or Madam,  
Dear Readers,

1,400 exhibitors from 40 countries will come to the world's leading trade fair WindEnergy in Hamburg. One of the central topics of the fair, which will take place from 25th to 28th of September in Hamburg, will be "Smart Energy". You can read more about this subject in today's special edition of our fifth WAB Newsletter.

We also invite you to get to know our co-exhibitors and partners and would like to draw your attention to the WindEnergyMatch of our partner EEN Bremen.

One more additional hint: In one week our traditional WAB Regulars' Table (29th of August) will take place, for which we are still happy to receive registrations via our [new homepage](#). We look forward to seeing you!

We wish you an enjoyable reading experience with our fifth Newsletter.

Best Regards  
Your WAB Team

## THE NETWORK

### PAVILION

#### Say hello to our co-exhibitors & partners:

##### Dr. Möller GmbH / IMS Nord

As a consulting company our core business focus is on offshore engineering, production technology, logistics and software solutions. We provide highest quality services in the fields of offshore windenergy, shipbuilding and mechanical engineering.

##### Bremen/Bremerhaven – Home of Innovation

Within the Free Hanseatic City of Bremen more than 100 companies and research groups with 4,000 employees are active along the value added chain of wind energy. Tailor-made industrial sites, attractive office properties, renowned research facilities, a strong network as well as heavy load terminals for seagoing vessels form an ideal environment for companies. The wind farms in Northwestern Germany are within a one-hour proximity.

##### Wind Multiplikator GmbH

Wind Multiplikator GmbH is a company in the offshore wind energy sector specialized in the management of offshore wind projects as well as in the provision of consulting and engineering services.

The combination of team spirit, professional and methodical as well as application expertise form the unique character of our company! Our storm proof and motivated employees are highly qualified experts in their field with long term experiences from complex offshore projects.

In the last years we have been e.g. part of the actual success story of Bard Offshore 1 (Germany's most productive offshore wind farm in 2017).

##### neowa

neowa is a service provider that offers a truly customer focussed turnkey solution for the disposal of rotor blades at different locations (windpark, industry storage, sea port etc.) and guides its customers professionally through all relevant processes. Rotor blade waste will be recycled through a subsidiary, neocomp GmbH in Bremen, which has been awarded the 1. place at the Greentec Awards 2017.

neowa - we design waste.

##### Steelwind Nordenham GmbH

Steelwind Nordenham GmbH is a future-oriented company of the Offshore Wind Industry. We are using a specialized fabrication system dedicated to the integral production of Monopiles and Transition Pieces, including all necessary onshore works and services like Coating, Installation of Secondary Steel or Electrical Installations. Steelwind Nordenham is a 100% Subsidiary of the Dillinger Group.

##### German Shipbuilding and Ocean Industries Association (VSM)

The German Shipbuilding and Ocean Industries Association (VSM) is the political and economic representative of the German maritime industry. With approximately 200,000 highly skilled employees working in the complex value chain for the production and maintenance of ships, boats and offshore installations for commercial, governmental and private customers worldwide, shipbuilding & ocean industries forms a core element of the maritime economy in Germany. The VSM directly and indirectly represents more than 600 enterprises and organizations: from specialized universities, research institutions and other service providers through manufacturers of materials, components and systems up to shipyards as system integrators. Established in 1884 the VSM provides its members with a wealth of practical services and represents their interests at the federal and state level as well as with the relevant European and international institutions

## **Inn2POWER mid-term conference on 27th September 2018 from 14:00–18:00**

We proudly invite you to our Inn2POWER midterm conference...

### Agenda:

Creating the Future: Case study on megatrends in the Offshore Industry  
Internationalisation of SME's: get connected!  
Innovation challenges posed to the supply chain by operators, developers, and research bodies across Europe as areas with the potential to drive down the cost of offshore wind energy significantly in the short to medium term.  
Consultation Office Inn2POWER: Learn more about the Offshore Wind MBA, our Company Directory, the Test Facility Database and more

More detailed information soon!

**Subscribe** to our Inn2POWER Newsletter

-for information on our Inn2POWER events like B2B meetings, conferences and site visits,  
-to stay informed about the project's progress and outcomes.

For more information please contact Nike Fuchs ([nike.fuchs@wab.net](mailto:nike.fuchs@wab.net))

## **Establish international contacts in the wind industry quickly and specifically**

The Enterprise Europe Network was launched in 2008 with the aim of promoting committed and innovative small and medium-sized enterprises in the European internal market. To date, the EEN, as it is briefly called, has developed into a worldwide network of consultants with more than 3,000 experts in over 60 countries advising companies on all aspects of internationalisation, innovation and EU funding programmes. At the WindEnergyMatch in Hamburg on September 27-28, there will be another opportunity to make use of the EEN's internationalisation service to establish new business contacts.

## **EVENTS |**

## **WAB Regulars´ Table with kind support of LÜTZE**

The Regulars´ Table will take place on 29th of August 2018. There will be a lecture about the topic "brine4power" from EWE GASSPEICHER GmbH. Furthermore, the Market & Logistics working group will introduce itself. Please register via our new homepage [www.wab.net](http://www.wab.net)

## **WAB Working Groups in 2018**

Participation is reserved exclusively for WAB members. Registration via our new website: [www.wab.net/en/](http://www.wab.net/en/)

**Foundation Structures & Steel Construction**  
Thursday, 22 November

**Operation & Maintenance**  
Thursday, 15 November

**Law**  
Wednesday, 7 November (Legal Offshore Day)

**Market & Logistics**  
Monday, 12 November

### **Industry-Event**

**Title:** TREFF-Punkt Exportinitiative Energie  
**Date:** 10th of October 2018, 18.00-22.00  
**Location:** BMWi (Eichensaal), Scharnhorststraße 34-37, 10115 Berlin  
**Language:** German/English

If you are interested in presenting your project in a specific foreign market in the form of a 3-minute pitch, please contact the office of the Export Initiative Energy at [office@german-energy-solutions.de](mailto:office@german-energy-solutions.de) or +49 (0)30 5408 793 - 50/-47.

### **Industry-Event**

**Title:** Offshore Energy Match  
**Date:** 23rd to 24th of October 2018  
**Location:** RAI Amsterdam (Halle 2) in Amsterdam, Niederlande  
**Language:** English

Registration is open until 17.10.2018 at <https://offshore-energy-match-2018.b2match.io/>

### **Industry-Event**

**Title:** AHK Business Trip Vietnam  
**Date:** 05th to 09th of November 2018  
**Location:** Vietnam  
**Language:** English

[Visit Website \(only in German\)...](#)

### **GfKORR Annual Meeting 2018 6th & 7th of November - Corrosion Protection of Offshore Wind Power Plants**

For the first time this year, the GfKORR annual meeting of the Fraunhofer IFAM will take place in Bremerhaven in order to get as close as possible to the wind energy industry. High-qualified lectures, international experts and a lot of room for detailed discussions allow an intensive exchange.

The lectures are understandable even for the "non-corrosion expert", but nevertheless convey a high degree of technically relevant know-how. The conference will be held in English to address interested parties from neighboring countries where offshore wind energy plays a key role.
