People

Chemistry Group

Dr. Thomas Sonnenhauser

- One of the partners of the Chemistry Group.
- Doctorate in the field of organometallic chemistry from the LMU Munich. He has spent time at the UC Davis, California, USA.
- Thomas is a German and European patent attorney and has 15 years of experience in patent matters before the EPO, GPTO and the German Federal Patent Court.
- His experience includes OLED compounds, semiconductors, fuel cells, solar cells, electric cables and fiber optics, electric and magnetic materials, carbon-based materials, nanotechnology, polymers (organic and inorganic) and pharmaceutical chemistry as well as pharmaceutical dosage forms.
- Thomas is representing a high number of opposition cases and has a great experience in attacking and defending patents. He uses this knowledge to provide improved patent drafting and prosecution strategies.
- In addition to examination, opposition, and nullity proceedings, he has also been involved in infringement proceedings.
