

FOR IMMEDIATE RELEASE (April 2021)

Norwegian KONGSTEIN and Polish Inter Marine sign an offshore wind cooperation agreement

(Bergen/Gdynia) KONGSTEIN AS, provider of technical advisory and project management services to the offshore renewables industry, and Inter Marine Sp. z o.o., provider of offshore service, have entered into a cooperation agreement to provide combined services to the Polish offshore renewable market.

Inter Marine has many years of experience and excellent reputation on the Polish marine industry market. KONGSTEIN brings its wealth of experience from the offshore renewable industry in Norway, Germany and other European countries into the partnership.

Managing Director of KONGSTEIN AS Rune Tvedt: “As one of the first Norwegian consultancies dedicated to serve the offshore renewable industry, we are today proud to share our learnings with our Polish partner. This has worked brilliantly between the two countries in the shipping and Oil & Gas industry, and KONGSTEIN will do the best to continue this relationship in the maritime renewable industry.”

President of Inter Marine Group Slawomir Kalicki: “With over 30 years of experience in various areas of the maritime industry we are delighted to enter into a partnership agreement with KONGSTEIN to develop Inter Marine’s knowledge and market position in the emerging Polish wind offshore sector.

The cooperation will also focus on mutual development of hydrogen projects. Bringing KONGSTEIN's knowledge and experience to the local market will be beneficial to the entire Polish wind offshore and hydrogen market.”

About KONGSTEIN
