PRESS RELEASE

WAB e. V. presents innovative solutions for the wind industry at HUSUM WIND 2025

Bremerhaven / Husum, September 15, 2025 – The Wind Industry and Hydrogen Association **WAB e. V.** will be represented at **HUSUM WIND from September 16 to 19, 2025**, with a **booth in Hall 2 / Booth 2C12**. Together with six member companies, WAB will present innovative products, services, and solutions along the entire wind energy value chain. Visitors to the joint stand can expect a wide range of information.

The focus will be on topics such as:

- Automation solutions to support the industrial ramp-up of wind turbines
- Strategies for risk management and opportunity development in the transition to clean energy
- Latest developments in steel construction and welding technology
- Service and engineering services
- Technical expertise for cost-effective underwater solutions
- Approaches to the management of complex industrial projects

Participating companies at the joint stand:

- Broetje-Automation GmbH
- LRQA Deutschland GmbH
- mh² offshore GmbH
- MML Service Solutions GmbH
- RS Diving Contractor GmbH
- setec eocean GmbH

WAB and its partners cordially invite you to exchange ideas about innovations, challenges, and opportunities in the energy transition. In addition to the exhibition stand, WAB is also actively participating in the supporting program of the trade fair.

“Together we demonstrate the innovative strength of the industry”

"HUSUM WIND is an integral part of our now global trade fair program. We are delighted to be represented again with a strong joint stand and to present the future of wind energy together with six innovative companies. We will take the opportunity to engage in dialogue with the federal and state politicians in attendance, especially as the results of the energy transition monitoring are expected during the trade fair week. The trade fair is under the patronage of the Federal Ministry for Economic Affairs and Energy. Together with the industry, we want to highlight the innovative strength of the wind industry along the value chain – in Germany, Europe, and worldwide," says **WAB Managing Director Markus Nölke**.

WAB in the supporting program of HUSUM WIND 2025

Networking lunch

Under the motto **“The North invites you,”** a **networking lunch** will take place on Tuesday, **September 16, starting at 1:00 p.m.** in the Congress Center, organized by **WAB, Renewable Energies Hamburg (EEHH), Renewable Energies Schleswig-Holstein (EE.SH), and Energieküste** – in cooperation with other associations and chambers. **Dr. Sabine Sütterlin-Waack**, Minister of the Interior of the State of Schleswig-Holstein, is expected to attend. No registration is required.

Expert forum

WAB invites you to an expert forum in **Hall 3 on Wednesday, September 17, starting at 11:00 a.m.** Topic:

“From series production to optimized service and operation – the goal is high system availability.” No registration is required.

“Women in Wind – Ladies only!”

On September 17 at 5:30 p.m., WAB will support the exclusive networking evening for women in the wind industry in Hall 5, Gallery 4. Registration is required via Husum Wind.____

About HUSUM WIND 2025

HUSUM WIND is one of the most important trade fairs for renewable energies in the German-speaking world. **12,000 visitors** are expected to attend. Around **600 exhibitors** will present innovations in the following areas:

- Onshore and offshore wind energy
 - Green hydrogen
 - Sector coupling
 - Storage technologies
 - Recycling & repowering
 - Financing & digitalization
-

About WAB e. V.

WAB is the **national contact for the offshore wind industry** and the onshore network in northwestern Germany, and promotes the production of green hydrogen from wind power. The association has around **250 members, including small and large companies** and institutes from all areas of the wind industry, the maritime industry, the emerging hydrogen economy, and research. Through our members, **we represent around 160,000 skilled workers**. The Wind Industry and Hydrogen Association WAB e.V. acts as the voice of the value chain for climate protection with “green” energy in the form of electrons and molecules.
